SILVER ANNIVERSARY PROGRAM OPENS FRIDAY

FACULTY PLAY "TEN NIGHTS IN A BAR ROOM" STAGED TWO TONIGHTS

GOVERNMENT PURCHASES ADDITIONAL 1,000 HEAD CATTLE IN COUNTY

PURCHASES IN COUNTY REACH TOTAL OF 9,500

Make Additional Allotment Following Urgent Requests

MANY CONDEMNED

Expect to Finish Purchases This Week and Next

An additional allotment of 1,000 head of cattle was granted Randall county this week, according to instructions received by County Agent W. H. Upchurch last Saturday morning. The government cattle purchasing program of the AAA is being continued in the county and it is expected to be completed this week and next.

The additional grant of the thousand more head was thought to have been a result of the efforts of the County Commissioners' Court in joining with the county agent in making a plea for an additional allotment for the county.

A telegram signed by the four commissioners and the county agent was forwarded to College Station early last week stating that the need for an additional allotment for cattle purchases in the county was very imperative.

The first extra allotment of 500 head was completed last week. Up to last week the total purchases in the county had exceeded 8,000 head. With the two additional allotments the total will be increased to 9,000 head purchased under the government program.

It was stated yesterday that from the purchases made this week there is a greater percentage of condemned cattle than at any time before now. It was estimated that almost half of the purchases made this week had been condemned by the government buyers and slaughtered because they were not in a condition to be shipped to market.

"This condition is serious," the county agent said, "with the outlook for little or no winter pastures and feed cannot be obtained. Ordinarily at this time of year the cattle on the ranges are in their best condition. At present it is only a choice of whether the government will pay $12 a head and shoot them or let them die on the ranges when the first cold weather comes."

New Dormitory Is Granted College

A Men's Dormitory, to cost $47,000 will be erected on the campus of the West Texas State Teachers College, under the grant of a loan to the College from the Federal Public Works Administration this week. Dr. Hill, received word from Washington Tuesday morning that the loan had been approved and the money would be allowed for the construction of the dormitory.

Of this total, $13,320 is a direct grant from the Federal Government and the remainder is in the form of a loan secured by a first lien on the revenues of the dormitory and to be paid off by annual installments, the last one to be due in 1961. It is expected that construction will begin immediately and with good weather conditions the building will be completed in five months.

It is estimated that thirty men will be given employment on the project during the construction period.

This dormitory will be the first of its kind for the college. A two-story, fire-proof structure, the building will accomodate thirty-two young men. It will be 40 by 108 feet, with a dining room, kitchen, reception and guest rooms on the first floor and sixteen rooms on the second floor.

In the application for the loan, which was made several months ago, Rittenberry and Carder of Amarillo were named as consulting architects, but President Hill stated yesterday that no working drawings of the proposed building have yet been made.

If present plans are carried out the men's dormitory will be erected on the block of ground west of the Stadium and facing the highway, as this ground is a part of the college campus.

The building will be constructed under contract.

There are several other college building projects pending in Washington, applications for loans having been submitted several months ago.

Friday Night's Game Will See Band in Uniforms

The new purple and white uniforms purchased for the High School Band by the Ladies Auxiliary of the American Legion have arrived.

The band will make its first public appearance decked out in the new uniforms when it plays at the Canyon-Happy football game tomorrow night at Buffalo Stadium.

The Canyon Eagles, broke loose on some wild scoring last week to take the Farwell High School team by a 38 to 2 score.

Coach Cleve Jones bunch of high school football men have been clicking in grand style for the past several weeks and the game with the Happy high school on the local field tomorrow night should be a real battle.

The Canyon and Happy games have always been thrillers and the one this year should prove even more so.

Rotary Governor Will Visit With Local Club Tues.

The Canyon Rotary Club will entertain its District Governor, Tom H. Taylor, at the regular meeting next Tuesday noon. Taylor, governor of the 41st district of Rotary International, was elected to that office at the district convention held in Abilene several months ago.

This will be the first official visit to the club this year.

He is known as one of the most entertaining speakers in Texas. In fact he has been acclaimed, "the Will Rogers of West Texas." He is president of the Howard-Payne Baptist College at Brownwood.

A native of Brown County, Mr. Taylor was educated in the college of which he is now president. He secured his master of arts degree from Baylor in 1907.

His Rotary classification is "college executive." He became a member of the Brownwood Rotary Club in 1921 and served a year as president of the club in 1925-26. Other positions held by him include county Democratic Executive Chairman, a place which he has held since 1920, and he is director general of the Interscholastic League for District 8.

J. E. Cheyne and wife were visitors over the week end with Mrs. Young at Wheeler.

Seasons' Changes Creates Demand For New Dishes

The change of seasons places a heavier demand upon the busy housewife in preparing meals for the family. The changing seasons call for different menus and a wider variety of foods.

Why not let "Favorite Recipes" the Canyon News cook book assist you in the preparation of new and tasty dishes. The recipes found in the cook book are all practical and tried. They are compiled from the favorite recipes of housewives of Randall county.

Get your copy of these splendid recipes before it is too late. After they are all sold, will you be among those who will regret having failed to purchase a copy?

While they last these practical and handy sized books of recipes may be purchased for only 25 cents at the Canyon News.

STAGE EARLY MELO-DRAMA TWO NIGHTS

Performances Free For Public; Tickets to Be Reserved

"BATCH" IS HERO

Shows Each Night in the Administration Building

Drawing back the curtains of time to the high-lights of the stage of a quarter of a century ago, faculty members of the West Texas State Teachers College will present the first performance of the old melo-drama, "Ten Nights in a Bar Room," in the Administration building auditorium tonight.

A part of the Silver Anniversary Celebration to begin tomorrow, the performance tonight is ahead of the schedule. Owing to the heavy demands for advance reservations to the old-time feature of the celebration it was found necessary to stage two performances, one tonight and the second tomorrow night.

Because of the great crowd expected for the presentation of this play, it has been necessary to plan to produce the drama in the Administration Building Auditorium. To do this properly and to create the needed atmosphere, a huge arch and two new sets of scenery have been constructed.

At the rise of the curtain for the presentation of the play, October 18th and 19th, a completely equipped stage and new settings, accurate in every detail, will be seen. The presentation will be rendered in the exact manner that was used in the staging of this

BUFFS SCRAP WITH INDIANS

Home Coming Grid Game Is Between Old Rivals

Back home to perform in front of an expected crowd of around seven thousand ex-students and fans in a gala Homecoming football game, the West Texas Buffaloes, victorious by 47 points over the New Mexico Military Institute, are working harder than ever in anticipation of a strong tribe of Indians from McMurry College.

Every man on the squad saw action in the Institute game, and the reserves gained some needed experience. Some of the second string men played spectacular ball against the Broncos at Roswell, and proved that they can be counted on when reserve strength is needed.

Among those boys doing well were Ezell Champion of Memphis, playing a new position at fullback, Vernon Johnson of Childress at end, A. D. Wheelock of Silverton, at center, Leo Jackson of Floydada, at tackle, and John Rankin of Miami, at guard. The squad was intact from injuries after the Roswell game, and is expected to go into the homecoming fray at full strength.

Satisfied that they have now convinced any remaining doubters that they have a real team by the type of football they have played in the last two games, Captain Walker and his teammates are determined to take each game as it comes as just a step higher up the ladder.

Although their opponents have been more than satisfied with the hard blocking of the Buffaloes for the last three games, Coach Baggett stated that it still lacked the viciousness which he desired. This week Baggett will give considerable attention to the individual blocking on the team.

While it was not necessary to

Exes Will Fly to Home-Coming Friday

Traveling by air, W. J. Rattiken, president of the Home Abstract Company of Fort Worth and of the Texas Title and Abstract Association, will attend the Silver Anniversary of the College from which he graduated in 1912.

Mr. Rattiken will leave Fort Worth about six a. m., October 19, and reach Canyon in time to appear on the program at ten that morning; he will remain through Saturday.

Accompanying him will be former State Senator Robert A. Stuart and Mrs. Stuart, I. G. Kenyon, Superintendent of Cchools in Johnson County, and Al Stafford of the Fort Worth City Health Department. All are graduates of the college, and Kenyon was editor-in-chief of the first annual issued by the college.

Park Concessions Now Being Handled By Amarillo Man

All concession agreements with local men at the Palo Duro State Park were terminated last week upon orders from D. E. Colp, chairman of the State Parks Board and the contract for all of the concessions given to J. A. Scofield of Amarillo.

Various concession rights had been held by A. E. Terry, Fred Marshall and Son, and R. L. Bomar. It is understood that Scofield, who took charge Monday of this week will handle the entrance fee at the gate on the road going down into the canyon; all drink and candy concessions; barbecue stands; filling station and will hold concession rights in the new lodge building when completed. He also is to have the horse riding concessions, it is understood.

Major E. A. Kingsley stated this week that it is not known by the Park Service just when or how many men will be moved back to the Palo Duro for winter CCC camps.

Major Kingsley will go to Dallas this week and accompany Mrs. Kingsley back to Canyon. She has been in Dallas for several days assisting with the Palo Duro Canyon booth on display at the State Fair.

Four Local Men On Hunting Trip Into Old Mexico

A quartet of Canyon deer hunters bagged one deer in the wilds of Old Mexico over the week-end. So far as has been reported this was the first deer killed this season by local hunters.

The four, Frank Hicks, Carl Hair, Les Key, and Fred Scott left Canyon last Thursday morning and drove to Marfa. There they joined a group of officers and border patrolmen for a trip across the Rio Grand into Mexico for the hunt. They returned home Monday night.

Hicks and Key are credited with having brought down the deer.

MEETING OF GAS CONSUMERS HELD LAST THURSDAY NITE

A meeting was held in the district court room last Thursday night to discuss the optional contract, which is being offered to consumers by the West Texas Gas Company.

R. F. Hinchey, vice president of the West Texas Gas Company, from Lubbock, explained the optional contract and answered questions pertaining to it.

Mayor C. R. Burrow presided at the meeting.

ALL IS READY FOR OPENING OF PROGRAMS

Overflow Crowds Will Hear Programs By Loud Speaker

MANY SPEAKERS

Public Is Invited To All Phases Of The Celebration

The Silver Jubilee celebration commemorating the 25th anniversary of the founding of the West Texas State Teachers College will begin tomorrow, when thousands of ex-students and friends of the institution are expected to come to Canyon for the two-day program.

The celebration will mark the culmination of plans of the past year in preparation of the joint home-coming and anniversary program.

Features of the program will include talks by Walter D. Cline, of Wichita Falls, Friday afternoon; the faculty play, "Ten Nights in a Bar Room," Friday night; the address of Ruth Bryan Owen, America's only woman ambassador, Saturday morning; a big barbecue at noon Saturday and the McMurry Indian-Buffalo football game Saturday afternoon.

In order to care for the overflow crowds which are expected to attend the programs, special sound equipment has been installed with a loud speaker in the Education Building auditorium where several hundred may be seated and hear the programs in the Administration building auditorium.

The same equipment will be used at the stadium Saturday when the program is held there providing the weather is favorable.

Coming at the eve of the celebration of the college's 25 years of growth, is the announcement that the Federal Government has granted a loan for the erection of a men's dormitory, construction of which will begin at an early date.

The enormous task of directing plans for the anniversary program was placed in charge of Prof. L. F. Sheffy who has served as chairman of the central committee on planning the celebration. It was Sheffy, head of the History Department of the College, serving as field secretary of the Panhandle-Plains Historical Society, who was largely responsible for raising the funds

THE WELCOME SIGN

Twenty-five years ago several hundred citizens of Panhandle towns came to Canyon to congratulate the city upon its successful fight to secure the location of the new normal college. Canyon had made the best offer of any of the 28 competing towns.

Friday and Saturday the 25th anniversary of the college will be observed, and perhaps a few who came to congratulate Canyon upon securing the location of the new college will return to see how well the institution has fared, and how well the people of Canyon have looked after the trust imposed upon us by the State.

The citizens of Canyon have entered heartily into the plans for making preparations for the Home Coming and Silver Anniversary.

The clean-up campaign has been very effective.

An attractive program of entertainment is ready.

Thousands of ex-students and friends of the institution will be here to rejoice that the State had the foresight to locate the new institution here 25 years ago.

Only one major thing remains yet to be done to make the celebration a success—a royal welcome for each and every guest.

This suggestion is hardly necessary, since Canyon has always made welcome its numerous guests for the many, many gatherings which come to the city. But this occasion is something unusual in nature, and therefore requires something unusual in the way of a welcome to the guests.

Let every citizen of Canyon put forth his greatest efforts in making welcome all who come for the celebration, and make them feel that they are missing a real treat unless they return often to visit their old friends in Canyon.

WEST TEXAS COLLEGE CELEBRATES
(Dalhart Texan)

One of the outstanding events scheduled for the Panhandle this fall, and one that will be of interest to every citizen and school child, is the celebration at Canyon this week-end of twenty-five years of growth of the West Texas State Teachers College. The event has been planned and widely advertised as a silver jubilee of the first institution of higher learning in the Panhandle.

The history of the school is glamorous with achievement and with real service to the region which it serves. Its growth has been marked by some adversities that were overcome by faith and hope and the constant co-operative work of the college leaders and the people of the Panhandle-Plains region, but chiefly by the constant triumphs that have seen the cause of education constantly pointed to higher ideals. The West Texas school has been a leavening force in inculating a higher artistic, practical and cultural program for the Plains region, which was just emerging from the era of the pioneer when the school was founded.

Its influence today is evidenced by the thousands of graduates who have achieved success in the business and professional world, by the thousands of graduates in this region who cherish a deep love for their school, and its influence is demonstrated to a greater degree by the increasingly large number of Plains school children who find the school ideally adapted to continue their training and receive the fundamental training for the place they wish to hold. New attendance records were set this year by the school with more than eleven hundred students enrolled, and prospects are that this total will be exceeded yearly because of the population growth in the West Texas area.

The celebration will not be entirely a retrospective view into the history of the school for twenty-five years as there will also be consideration of the progress that must be made and the work that must be done before the celebration of the golden jubilee in 1959. The past is being recalled merely to emphasize the possibilities for growth in the future, and it likely will be far more rapid because the Panhandle Plains, with a return to normalcy, seems destined to enter a new era of building.

The thousands of visitors who will throng the campus this week-end will be an incentive to the leaders and instructors to continue their work with renewed interest and to build more solidly for the enduring success of the Panhandle Plains and its people.

Queerest Accidents of Recent Times Combine Humor, Tragedy

EVERY day, all over the world, strange, unexpected, and almost unbelievable accidents occur. Many bring direst tragedy in their wake; others fortunately escape the grief, and are remembered for their humor or oddity.

One of these near-tragedies which turned out happily came about recently. In Brooklyn, N. Y., a 3-year-old tot cried out, "Here I come, mama!" and dropped from a third floor window to a concrete pavement. Unhurt, he crowed: "Wait till daddy hears how I jump!"

In Gary, Ind., recently, a woman, getting out of her bath, stepped on a cake of wet soap, skidded across her bathroom, shot out an open window, dropped three stories and landed, unhurt, in a sandpile.

In another recent freak happening, a young Ottawa, Canada, amateur golfer took a lusty swing at a golf ball, and nearly strangled before help arrived. His club had snapped in two, and the broken head and tape lashed around his neck.

When a man bites a dog, it's news; and so it is, too, when a deer kills a hunter, or a fish slays a fisherman. In Pennsylvania some time ago, the day before deer hunting season opened, one of the creatures bounded out of a woods and crashed into a car carrying three men to the hunting grounds. All were killed.

And a French-Canadian trapper of The Pas, Manitoba, was shot dead when the tail of a large pike, threshing about in the bottom of his canoe, touched the trigger of a rifle.

A Detroit woman wished her husband plenty of trouble. She told him, "I wish you'd go out and have an accident." He was

run over, lost part of a foot. Then she said, "I wish you'd lose the other foot." He did. Fed up by this time, he sued for a divorce.

• • •

COINCIDENCE featured two unusual tragedies. In May, 1931, an Indiana man and his wife were injured when a train struck their auto at a grade crossing. In May, 1932, while riding in the same car they were struck by the same train at the same crossing. The woman was killed, the man seriously injured.

Back in 1927 the three children in the family of Uriah Richards were killed in a train-auto crash near Orting, Wash. Several years later the father was killed by an auto, leaving four survivors. A year ago June these four were killed in one accident when a train hit their truck.

• • •

MANY have been the instances in which persons hit by street car or locomotive or involved in a plane crash, have escaped uninjured. And just as frequent have been strange occurrences of an opposite nature.

A Chicago acrobat, for instance, broke his neck when he tripped and fell on a smooth, sandy bathing beach. A star Iowa football player had his shoulder dislocated when his younger brother kicked him in his sleep. And a prominent Chicago surgeon died from infection after he had pricked his finger with a safety pin.

Carelessness has been responsible for other accidents. To surprise his wife, a Kansas City, Mo., man got up first one morning and baked biscuits. At the hospital to which both were taken, it was learned that he had used insect powder instead of baking powder.

An Illinois man's false teeth bothered him so that, when not in use, he kept them in his back pocket. His auto hit a bump in the road, and he had to have stitches taken where he had "bitten himself."

Here have been described only a few of the more spectacular accidents, yet similar mishaps occur daily. The lesson seems to be that no one knows how, where, or when an accident will happen.

FILES OF OLD NEWS REVALS W. T.'s START

Canyon Citizens United in Effort to Obtain Location

LARGEST BID

Held Dedication of First Building on Campus March 4, 1911

By FRED E. WORTHAM

From the files of the News, almost complete and dating back to 1901, can be gathered a very interesting and detailed history of Canyon, her institutions and the general development of Randall county during the past three decades. It is from these files, in the dim past of a quarter of a century ago, is brought a picture of the beginning and establishment of the present West Texas State Teachers College.

The citizens of Canyon were intensely interested in securing the location of the college (then designated as the Normal) even before such an institution had been created by an act of the Legislature.

Several weeks before the actual bill creating the institution had passed the legislature and been signed by the governor, a meeting was held in the city to arouse the interest of local citizens in the proposed project.

The bill providing for the West Texas State Normal College, known as House Bill No. 5, was introduced into the 31st Legislature in the winter of 1909. Sen. W. J. Bryan, of the 28th Senatorial district has been credited with being the real author of the bill, according to the Randall County News files. The bill was introduced by T. J. Barett in the House of Representatives. Its champion and strongest supporter in the House was J. R. Bowman. Barett represented the 103rd legislative district, and Bowman represented the 106th district, which included Randall county at that time.

The bill creating a new state educational institution to be located somewhere in Texas west of the 98th meridian was signed by Gov. Tom Campbell, March 31, 1909. The original bill called for a committee of three, the governor, the lieutenant governor, and the superintendent of public schools to determine the location. The governor appointed John Marshall of Whitesboro, speaker of the House of Representatives to serve on the committee in his place.

It was the committee of these three men, Marshall, Lieutenant-Governor A. B. Davidson, and Superintendent R. B. Cousins, who were to determine the destiny of the state's newest educational institution.

The first indication of interest and activity on the part of Canyon citizens was found in the issue of the then Randall County News of January 22, 1909, which published the following news story:

"WILL RAISE BONUS FOR NORMAL SCHOOL

"Citizens of Canyon City Interested In Establishing of State School

"There is quite a sentiment among the legislators of the state for the establishing of another school to be maintained by the state for the education of teachers for work in the public schools. This is made almost imperative on account of the crowded condition of the three state normals now run by the state. The buildings at these three institutions are already too small to accommodate the very large number of people who are attending the schools preparing themselves for work as educators in Texas.

"The people of this city who are interested in these matters are to have a meeting at the court house next Tuesday night at 7:30 for the purpose of taking the first steps toward the securing of the location of the new school at this place should the legislature so decide to locate."

* * * *

Following this meeting the News gave no account of what took place. A period of several weeks lapsed and in the meantime the Legislature had created the new instituution and other towns in West Texas were announcing their intention of asking for its location.

In the issue of April 9, 1909, the editor, R. A. Terrill, now a member of the College faculty, made this editorial comment:

"Say, that was all a bluff about Canyon City wanting that State Normal school. They met and puffed themselves up a bit about the natural advantages, but since the bill for the establishing of the Normal has passed the Legislature we have not heard a single word about the matter from Canyon City people. The editor has been laying still waiting to hear from the town, but 'narry a word' has he heard about it. Some people can bluff awfully but we notice that they generally get licked. No, the editor isn't billious this week."

* * * *

Evidently this little shot from Editor Terrill started things moving as they should. It was only a week until the News carried a story of which the following is a part:

"TAKE FIRST STEPS FOR NORMAL COLLEGE

"Rousing Mass Meeting Held Wednesday Night for That Purpose

"What is considered to be the most enthusiastic mass meeting ever held in this city was held Wednesday night when the people came together for the purpose of taking steps looking toward securing the location of the new state normal school at this place.

"When the meeting was called to order the house was comfortably filled and in a short time the entire room was full and the interest manifested was not by a few persons alone. Judge Cyrus Eakman was made chairman of the meeting and R. A. Terrill, secretary.

"The speeches were many and to the point. The time had been limited to five minutes for each speaker in order that all might be heard from during the evening. Of course some time was devoted to honeyed words about the natural advantages of the town, but many valuable suggestions were offered and, among other things done, one man offered to donate $2,000 and another $1,000 and an additional 20 acres of land should the location board decide on land of his for that purpose."

* * * *

After the rousing meeting in April, there were only a few newspaper accounts of what the committee in charge of preparing Canyon's bid was doing. Then came another period of several months when very little, if any, mention was made through the news columns of the paper. From casual comments in the editorial colums it appeared that the Canyon men were keeping their plans to themselves until the proper time for them to be made public.

In the meantime the committee authorized to select the location notified the competing towns that they would hold a meeting in Fort Worth to receive the bids. It was in the issue of July 23, 1909 that the announcement was made that the committee would hear the bids from the various cities, on Monday, August 9.

A portion of the account of the meeting in Fort Worth is reproduced from the News of August 13, 1909.

"WEST TEXAS NORMAL COLLEGE BIDS MADE

"Twenty-eight West Texas Towns are Ideal Locations for New State School—Canyon City Represented

"A crowd almost equal to the State Democratic convention gathered at Fort Worth last Monday to meet the board which had the locating of the new normal college in West Texas which was provided in the last session of the legislature. It was a large, good natured crowd of West Texas and Panhandle business men that greeted Lieutenant - Governor Davidson, Superintendent of Public Instruction R. B. Cousins and Speaker John Marshall of the house of representatives when they met those who had come to boost for their particular town.

"The towns represented were: Abilene, Amarillo, Ballinger, Big Spring, Brownwood, Canyon City, Cherokee, Clarendon, Cisco, Coleman, Colorado, Dublin, Haskell, Hamlin, Iowa Park, Lubbock, Midland, Merkel, Mineral Wells, Seymour, Sweetwater, Snyder, Stanton, San Angelo, Stamford, Tulia, Vernon, and Wichita Falls.

"The hearing of the various towns was begun Monday afternoon and not completed until late Tuesday. The board announced that they would on Wednesday open the bids and determine the towns they would visit and then announce their itinerary. It is expected that they will come to the Plains country first and visit the lower cities later, and that the final decision will be made before this month is closed.

"L. T. Lester, chairman of the committee, L. E. owling and R. A. Terrill represented Canyon City before the Board. Jasper N. Haney, mayor of the city, also being present."

* * * *

At this time it was publicly announced that Canyon's bid had been more than $100,000, which from the newspaper accounts startled the other cities seeking the college.

For the Canyon people vitally interested in securing the college came a period of some three weeks before a final decision was made.

The locating committee decided to make a tour of the cities making the more attractive offers and see for themselves the proposed sites offered them for the Normal.

The three men arrived in Canyon, Sunday, August 15. They were honor guests at the Palo Duro Club at a picnic and later in the day carried by automobile (something worthy of mention in the paper 25 years ago) to the Palo Duro Canyon.

Monday morning, accompanied by hundreds of curious Canyon citizens the men visited all of the several sites offered them here for the location of the institution in Canyon.

In the issue of the News on August 20, was published the amounts of bids submitted by the various places seeking the new school. Canyon's bid was published in detail.

Canyon's bid had been $100,100 cash and the choice of seven plots of ground of approximately 40 acres each.

* * * *

It was thrilling news for local citizens which the telegraph wires brought September 2, 1909, when word reached the city that the Normal would be located in Canyon.

Down the middle of Page 1, on September 3, the News carried a two-column story in large type telling about the selection of Canyon for the site of the Normal.

Under the heading:—

"CANYON CITY GETS WEST TEXAS STATE NORMAL"

—The News carried a special Associated Press dispatch from Austin.

"Austin, Texas, Sept. 2.—Canyon City was unanimously chosen as the site for the West Texas State Normal college. Canyon City offers $100,100 in improvements and an additional site for the buildings.

Other messages:

"Special to The News.

"Austin, Texas, Sept. 2.—Your city is selected as the location for Normal school. R. B. Cousins."

"Special to The News:

"Austin, Texas, Sept. 2.—Committee has selected Canyon City for location of Normal. See official letter which follows. A. B. Davidson, chairman."

* * * *

As the electrifying news reached Canyon, the citizens hurriedly assembled in a general meeting and the decision was made to hold a gigantic celebration on the square, Friday night, September 3.

The News carried this information about the proposed meeting:

"BIG CELEBRATION TONIGHT"

"At a meeting of the citizens held at the district court room last evening arrangements were hurriedly made for a big celebration and ramification to be held tonight on the public square. Invitations were sent out yesterday afternoon to all surrounding counties asking them to come and join us. Noted speakers were invited and special trains will be run to bring the people, at least from Amarillo, as that arrangement had been completed at the time of going to press and the committees were trying to make arrangements for a train from Hereford and Plainview."

A follow-up in the News of September 10, states that the meeting drew the greatest crowd for any occasion in Canyon.

Amarillo sent a delegation of 200 people by special train, and practically every city in the territory was represented.

The location of the Normal in Canyon was declared by one of the speakers at the celebration to be "the first gift at the hands of the state of Texas to the Panhandle country."

* * * *

It was on October 22, that the Randall County News published the detailed story of the selection of an actual site in Canyon for the new normal. Members of the committee had made several trips here to decide on the exact site to be used.

"The site chosen by the committee contains 40 acres of land lying north of East Houston Street (now Fourth Avenue) and about eight blocks east of the square. It is a block of land belonging to L. G. Conner and lies in a square and is very gently sloping from almost the middle point of the tract to each of the four sides and is an ideal tract for the location of the handsome building proposed."

* * * *

Following the location of the normal in the city and the selection of a college site, the next most important feature of interest concerning the beginning of the educational institution was the naming of a president.

In the issue of the News, November 12, 1909, a 1 column box on page 1, under the heading, "A President Chosen," this brief item appeared:

"Just before going to press the News received word that Prof. R. B. Cousins was chosen President of the State Normal School."

Upon his appointment as president of the new school, Cousins resigned as State Superintendent of Public Instruction and announced that he would move to Canyon in January, 1910.

The contract for the first building on the campus was let on February 1, 1910 to Ben G. Lee of Tulia. Lee was a member of a contracting firm which was at that time erecting the Swisher county court house at Tulia.

* * * *

In the issue of the News, February 18, 1910 was published the names of the faculty for the new school. They were: L. G. Allen, Anson; J. W. Reid, Austin; J. A. Crawford, Austin; Miss Nancy A. Fritz (Denton) Conway, Ark.; Miss Jennie C. Ritchie, Mineral Wells; Ellsworth Lowrey, Austin; Miss Margaret E. Cofer, Fort Worth; Miss Mary E. Hudspeth, El Paso; E. P. Guenther, Halletsville; B. A. Stafford, Mineola; F. M. Martin, El Paso; J. A. Hill, Roscoe; R. L. Marquis, Mineral Wells; and T. S. Minter, Jewett.

Of the original group, three are members of the present faculty. They are Dr. Hill, Miss Ritchie and Miss Hudspeth. J. W. Reid and L. G. Allen are both residents of Canyon at this time. Reid is president of the First National Bank and Mr. Allen retired from active teaching last year.

* * * *

Ground was broken and the first dirt removed for the construction of the first building on February 17, 1910. The cornerstone-laying to the old main building was held on May 24th. The cornerstone bore this inscription:

"T. M. Campbell, Gov., J. W. Stephens, W. B. Townsend, F. M. Bralley, Sec, State Board of Trustees. L. T. Lester, L. E. Cowling, R. A. Terrill, Local Board of Trustees. A. B. Davidson, John Marshall, R. B. Cousins, Locating Committee. Waller, Shaw and Field, Architects. Holderness, Oates and Field, Builders."

W. H. Fuqua of Amarillo spoke following the corner-stone laying.

* * * *

It was expected that the building would be completed in time for the opening of the fall term in September, 1910. However the building was not completed for the opening of the session and the first assembly of students was held in the Methodist Church, September 20. The official opening of the session was the 20th wedding anniversary of President and Mrs. Cousins, the News stated.

Students who enrolled during the first week of the first term number 152, and classes were held at various points over town awaiting the completion of the new building.

The dedication ceremonies were announced for December 15, but due to the failure of the opera chairs to arrive for the auditorium the dedication was delayed.

The work on the building was completed on the 19th of December and the trustees of the college accepted the building. The building was complete and ready for use, except for the opera chairs which had not yet arrived.

On March 4, 1911, the first building on the Campus of W. T. was dedicated with Hon. Tom Campbell, who had retired from the governor's office only two months before, giving the principal address.

This marked the end of the goal set by Canyon citizens when they held a mass meeting in the court house more than two years before that time.

But it also marked the beginning of the great institution of the West Texas State Teachers College which was to render educational advantages and service to 18,000 young men and young women of West Texas during the 25 years to follow.

Too, it marked the beginning of many trying and testing periods in the life of the institution.

To obtain the location and construction of the first buildings meant a fight on the part of the people of Canyon. To maintain that institution other fights were to be made.

Just at a time when the college was beginning to function properly, a disasterous fire wiped out the entire physical plant of the institution. With united effort and co-operation the citizens of Canyon and college faculty stood together and after two years they saw the completion of the largest and most modern educational building at that time in Texas, replacing the one swept away by fire. The Administration building today remains the largest educational building in the state.

Through the years the West Texas State Teachers College has grown and expanded until today it stands as a living tribute to those who labored and sacrificed to make it a reality. It is an institution known and appreciated among the educators of the nation today.

A borrower has a tough life. With him it's always touch-and-go.

Doing our share is a lot more important than taking it.

W. T. Tennis Team Won Matches

Last Saturday afternoon in Roswell the West Texas tennis team upset the dope by winning four out of six matches against the New Mexico Military Institute team.

Coach Lockhart has had his men working only a few days, while the Institute team has been working out for several weeks.

Clarence Wooten, playing No. One for West Texas defeated Sullivan of the Institute 6-4, 1-6, 8-6. Barker of the Institute was victorious over Donnell, No. Two of Canyon, in straight sets of 6-2, 6-1.

Smalley defeated Newton of the Institute in easy sets 6-2, 6-0, and Coleman wound up the singles for West Texas by wining from Guy of Roswell, 6-4, 6-4.

In the doubles Wooten and Smalley cinched the meet for Canyon by winning from Sullivan and Barker 6-1, 7-5. McKay and Guy won the second match for the Institute by winning from Donnell and Coleman after a hard fight, 3-6, 7-5, 6-3.

German-Jewish Problems Told Club By Rabbi

The Jewish situation in Germany was told to Rotarians Tuesday by Rabbi Perry Nussbaum of Amarillo, who was guest speaker for the day.

Tuesday's program was in charge of the Fellowship committee of the club, with J. O. Quattlebaum, chairman.

Rabbi Nussbaum, reviewed a number of important developments by the Jewish race, particularly with relation to Germany. He asserted that Germany had risen from the rank of a second class nation to first rank among nations, through the leadership of German-Jews. Discussing the bitter hatred of German Nazis against the Jews, he said, "If the Jewish people have ever paid the Germans for life and for the air they breathe, they have done so during the past 18 months."

The chief source of trouble between the Jews and the Nazi government in Germany is because of religious views, he said. Thousands have been driven from the country and many thousands deprived of means of making a living through governmental decrees against Jews, the Rabbi stated.

"The Jewish people still maintain their faith in the justice and right that will overcome unjustice being done members of their race," the speaker declared.

Visitors at the club Tuesday were Rabbi Nussbaum, Amarillo; S. H. Condron, Canyon. Rotarians, Irving O. Tolzien, Ben Anderson, Mason King, Wilbur C. Hawk, W. C. Garre, B. I. Barfield, C. R. McAfee, and W. H. Moore, all of Amarillo.

ART EXHIBIT IN MUSEUM

Presented By American Federation Of Arts

A new art exhibit will be placed in the Mary E. Hudspeth Room of the Panhandle-Plains Historical Society Museum this week and will remain on display until October 31.

Miss Isabel Robinson, head of the Art Department, arranged for this exhibit as a feature of special interest for the crowds who will be here for the Silver Jubilee Anniversary, as well as for the present students and casual visitors to the museum.

"Plant forms in ornament," is the general subject of the exhibit which is sent out by the American Federation of Arts, from its headquarters at Washington, D. C.

There are forty pictures in the exhibit, which was selected by Forest Grant, director of Art, High school Division, New York City; James C. Boudreau, Director School and Fine Arts, Pratt Institute, Brooklyn; and Richard F. Bach, Director of Industrial Relations, the Metropolitan Museum of Art.

From the very earliest period of the world's history, workers with pottery, metals, and paints have found suggestions for decoration in the forms of plants growing around them. The pictures to be seen in this exhibit show how plant forms can be adapted to designs for draperies, costumes, china, silverware and other things which are used in every day life. Included are designs based upon the yucca and several varieties of the cactus.

The art department suggests that students view the exhibit several times during the fourteen days it will be hung, for each successive view will make it more interesting and understandable. The Museum is open daily from 2:00 to 6:00 o'clock.

THINGS YOU MAY NOT KNOW... ABOUT YOUR TELEPHONE

The telephone had its birth 58 years ago in a make-shift Boston research laboratory, where Alexander Graham Bell watched a tiny straw attached to the eardrum of a human skull trace a wavering line on smoked glass.

Since then, telephone history has been told in countless scientific problems solved. Bell Telephone Laboratories, research arm of the telephone service, is the reason you now may talk across continents and seas, that most telephone wires are underground, that a single long distance line may carry four simultaneous conversations.

Research scientists at the Laboratories search constantly for inventions and improvements that may be devoted by the Southwestern Company, and the other Bell operating companies, to keeping the price you pay for telephone service low.

Back of this fundamental policy is the belief that in an undertaking planned like the telephone service for the long pull, what is best for the telephone user becomes in the end the policy that will bring us the sounder, more enduring measure of success.

HILL ATTENDS CONFERENCE IN FT. WORTH

VISITED MOTHER IN HAMILTON WHILE ON TRIP

Dr. J. A. Hill returned yesterday from a trip to Fort Worth where he attended a conference of the presidents of the Texas State Teachers Colleges who met for the purpose of discussing applications for federal loans and matters of mutual interest.

The applications pending for West Texas State Teachers College consist of a dormitory for boys, an addition to Cousins Hall, a Home Economics practice house, a cottage group at the college farm, and a recreational park on the campus, including an outdoor swimming pool, more concrete tennis courts, handball courts, and other improvements.

Dr. Hill also visited his mother, Mrs. F. P. Hill, in Hamilton, Texas. Mrs. Hill will soon celebrate her eighty-eighth birthday.

W. W. Richeson will leave Sunday for Dallas where he will attend the Banker's Life Company Insurance training school to be held there from October 22 to 26.

S. B. Orton left Saturday morning for Chicago and other eastern points. He plans to be gone about ten days.

R. H. Wright went to Mineral Wells Sunday where he will spend a short vacation.

Buffs Smother N.M. Instiute With Heavy Score, 47-0

After a burning sun and a low climate had slowed up their attack in the first quarter, the West Texas Buffaloes came back strong in the last three periods to run rampant over a confused and badly outclassed football team of the New Mexico Military Institute in Roswell to make the final score 47 to 0.

Weaver, right halfback, starred in the game throughout after his team mates had dedicated the game to him because it was his twenty-second birthday. Weaver led the scoring column with three trips across the goal line. Holston was next with two touchdowns and two extra points, Taylor with two scoring journeys, and Teague with three extra points converted.

Soon after the second quarter started, Van Noy made the opening installment on Weaver's birthday present with a 32 yard run from his 50 yard line to the 18. After two plays at the line lost one yard, Van Noy picked up 13 yards off tackle. Weaver, himself, carried the ball over from the nine yard line. Teague's kick for extra point split the upright bars.

Following the kickoff Teague intercepted a Bronco pass on his 45 yard line and slashed his way to the one yard marker, only to have the play called back and have the Buffs assessed a 15 yard penalty for clipping.

Holston took a punt on the Institute's 40 and ran it back 20 yards to start the second scoring drive. A pass from Holston to Thompson picked up ten yards. Holston made eight and Thompson one yard through the line. Taylor coming in to substitute for Holston carried the ball across for the score. Taylor's try for extra point was wide. The score at the end of the first half was 13 to 0.

The Buffaloes came back stronger in the second half to make two sustained drives for touchdowns. The Buffs took the ball on their 25. With Weaver, Teague, and Taylor making ten yards a try through the Institute line, the Buffs marched to the Institute 18, and a pass from Taylor to Weaver was good for the score. Teague kicked the extra point to make the score 20 to 0.

After the kickoff the Buffaloes once more drove on four straight power plays to the Bronco three yard line from where Weaver went over for his third touchdown of the afternoon. Teague's educated toe placed the oval between the posts for his third consecutive extra point and mounting the score to 27 to 0.

Throughout the second half the blocking and tackling of the Buffaloes was powerful and vicious, and the defense of the Broncos crumbled before it. At this juncture an entire new team came in for the Buffs, and substitutes played the major part of the second half. Coach Baggett used all of his 25 men in mounting up the final score. Some of the substitutes were almost as outstanding as the regulars.

In the last period, Wheelock, Buff center, intercepted a stray pass on his 50 and drove to the Bronco 30. On the first play, Red Holston raced the entire distance to score. He also converted the extra point.

Sandefer, a blocking half at last got his hands on a ball as he intercepted a pass on the Institute's 30 yard line. A pass from Taylor to Weaver made 20 yards. Taylor and Holston carried the ball to the 5, and Holston scored. Holston miss the extra point.

The final score came when Costello Taylor took the ball on his own 36 yard line and went 64 yards weaving his way through the entire Bronco team for the score. This run was made possible by the Buffs blocking every Bronco down on the ground except two whom Taylor evaded by sidestepping.

Holston ended the scoring spree by kicking the extra point. The game ended with the Buffs in possession of the ball in mid-field after interception of a pass.

WHY CHANGE ENGLISH?

In the years to come, what would the English language sound like if all of the commonly misused words were recognized as correct?

The Readers Digest has recognized the objective case when used as a subject compliment as correct because of common usage.

Many men have given their lives to the study of languages, and to classifying them. There are languages in which no word has more than one syllable, like the Chinese; ond on the other hand there are those, like the German, which contain words of seven or eight syllables. There are tongues belonging almost entirely to undeveloped peoples, which make use of but few sounds, and there are others, as English which have more than forty. Then there are divisions according to grammatical structure.

It is estimated that there are over 5,000 languages and dialects. In all of these tongues there are no fewer than 300 different ways in which the vocal organs must be used to produce sounds. The English language uses almost fifty, and probably no language has ever made use of more.

The English language is one of the leading languages of the world, so why change it by recognizing all of the commonly misused words as correct?

WHAT! NO PAVEMENT?

How does the front of school look on a rainy day? All of the cars are in a huddle because they don't want to get off on the muddy side streets. The paved space is too small. There is too much traffic there. The school busses getting ready to leave; mothers and fathers coming after their children; teachers and students hurrying across the street. While if the street in front of the grade building were paved, everyone would have plenty of room. Well, here's hoping the next time the city paves any streets, they won't forget all about the unpaved Grade Block.

Class Mothers Elected Thursday

Class mothers were elected by the high school classes last Thursday afternoon.

Mrs. Joe H. Black was chosen by acclimation by the seniors. The juniors elected Mrs. G. W. Cox; the sophomores, Mrs. Beryl E. Mayfield; and the freshmen, Mrs. A. W. Sternenberg.

The mother of each class will be in charge of the class booth at the carnival to be given by the P. T. A., October 30.

Ex-student Arthur Lee Chambers is in the regular army at Fort Logan, Colorado.

An Ohio judge rules a wife has a right to take money from her husband's pockets. But the hard thing for her to do is to find a husband with money in his pockets.

Parent-Teachers to Sponsor Carnival; Public Is Invited

Get ready!

A carnival is coming to Canyon High School, Tuesday, October 30.

Every family in Canyon will be there, so come and bring yours.

The primary department of the Canyon Public Schools will open the carnival at 7 o'clock with a program of playlets and dances.

Eats To Be Served

Don't eat your supper before you come because—at the door of the high school you will be confronted with the aroma of all kinds of eats; hamburgers with their mustard soaked onions, popcorn balls of every color, shape and size; pies; hot coffee in the Home Economics room, and candy booths nearby.

Booths to Line Halls

The halls will be lined with booths. People all over Randall county may bring dolls and enter them at a booth for a prize for the most interesting doll. One cent will be charged for an entrance fee. Any kind of doll, rubber doll, antique doll, or foreign doll may be entered.

If you want your weight or height guessed, there will be experts to do it; also, if you want to know whom you will marry, fortune tellers will tell you.

Any boy may enter an airplane for 1 cent. A prize will be given to the winning plane.

You may fish for your luck at a pond or go to a grab bag.

The Chamber of Horrors is the name for a room of ghosts, bones, and blood-curdling yells.

Some of you people who never seem to smile should go to the House of Laughs, and get a good laugh for once.

Squawkers, balooons, and "what have you" will be sold.

You can even gamble on the lottery wheels.

Boxing and wrestling matches will be put on by the high school boys and well known citizens of the town.

If you like picture shows, there will be one at the carnival. It will be scenes taken by a local citizen in his travels.

Every class, club, and organization in town and school will have booths and sideshows.

Town Co-operates

Last, but not least, a main show will be given, made up of competitive stunts put on by the American Legion Auxiliary, Junior Women's Book Club, the Rotary, Farm Boys, Boy Scouts, and the Book Club.

A prize of $3.50 will be given to the best stunt, and a prize of $3.50 will also be given to the booth taking in the most money.

This carnival is being sponsored by the Parent-Teachers Association to make money to put over the District Parent-Teachers Association which comes here next spring.

13 Repeats Its Charm Sat. Nite

Should a team be counted lucky if it should score 13 points in the first 13 minutes of play, playing on the 13th day of the month.

That's what the Eagles did last Saturday night. Should the Eagles adopt 13 for their lucky number? From all indications they should.

Grades Have First Assembly Program

The 6B and 4A and C grades had charge of the Grade School Assembly Friday morning.

The 4A and C gave a play, "The Defeat of Major Fire Destruction." The characters were:

King Carefulness, James Sharman.

Major Fire Destruction, Clarence Eugene Thompson.

Kerosene, Billy Oscar Gano.

Gasoline, Wanda Goodwin.

Cigarette, James Thomas Harp.

Match, Bernice Lowrie.

Rubish, Rex Gamble.

Electricity, Gordon Lynn Dickerson.

Gas, Edwin Key Yager.

Bonfire, Anna Lee Newlin.

Chimney, Sarah Slack.

Lightning, Garland Lott.

Spontaneous Combustion, Dan Cabe.

The 6B gave a play in which the characters were: Billie Joe Hunter, Vaughen Vandergriff, Dorothy Strain, Beatrice Burrus, Sunshine Hardin.

Pauline Spence gave a reading, and Carl Criswell told a story. The group sang "Texas, Our Texas."

IN CONDOLENCE

In behalf of the students and faculty of Canyon Public Schools, The Eagles Tale wishes to express its sincerest sympathy to Miss Annis Smith, her mother, and other members of the family, in their recent bereavement.

Grades Observe Fire Prevention

The Grade School students have been observing Fire Prevention Week. They have had several fire drills, and have been studying how to prevent fires.

The second and third grades have been dramatizing fire prevention stories.

4B has been studying the statistics concerning losses caused by fire, how to turn in a fire alarm, and ways of preventing fires.

The fifth grade has been having fire prevention programs; they consisted of stories, talks, and directions from their fire chief.

All of the grades have elected their fire chiefs and other officers.

Glass Cabinet Made for Bulletin Board

In order that the school officials might regulate the notices on the bulletin board in the front hall, the janitors, during the past week end, placed a glass cabinet over the board.

By this method, articles placed on the bulletin board will have the O. K. of the Principal, and will not be taken down before they should be. The notices for meetings of clubs and organizations will be kept on file in the office, with the purpose of the meeting written on the back of the notice, so that the school authorities will be posted as to the accomplishments of each organization.

GIRL SCOUTS BEGIN WORK ON PROGRAM

The high school and grade school Girl Scouts met Wednesday afternoon, October 10, at 3 and 4 o'clock respectively in the high school gymnasium for their weekly meetings.

The high school Scouts made plans for their assembly program, learned a new song, "Sing to Me Gypsy," and sang other songs.

Miss Lois Goodrich read to the grade school Girl Scouts the life of Juliette Low, the founder of Girl Scouts. The Scouts then worked on tenderfoot tests.

Lorna and Bill Cone were in Dimmitt Sunday.

Meet the Student Council Members

The Student Council has as its head this year, Mary Ella Lowe, a senior. Two representatives, a boy and a girl, are elected from each class. The purpose of the Student Council is to set the policies of the school, and to bring all the interests and desires of the students to one governing body. Some of the projects they are to work on this year are student supervision of fire drills, student advice in regard to assembly programs, and an organization of student police who will patrol the block in front of the school building in order to see that there is no walking in the street and riding on the outside of cars.

Lowe Student President

Miss Marye Ella Lowe, the president of the Student Council, started attending the Canyon Public Schools when she was in the second grade. Miss Lowe won the extemporaneous speaking cup two successive years, 1933-34, and plans to enter debate this year. She has worked as a reporter on The Eagles Tale for six years, and is a member of the Press Club. Miss Lowe has been a member of the Purple Peps for the past four years and is now secretary of the organization.

Senior Representatives

Hampton Lisle, a senior, is quarterback for the Eagles and has lettered one year in track. He is also co-editor of The Eagles Tale.

Mary May Harrison, the other senior representative, served on the Student Council when she was a sophomore. Miss Harrison is a member of the Purple Peps and Press Club and is a reporter for The Eagles Tale.

Junior Representatives

Sam Archer, junior, is interested in athletics, having come out for football and basketball every year he has been in high school.

Sarah Bonnie Bourn, junior, has been a patrol leader in the Girl Scouts for the past two years. She is a member of the Press Club and has been on The Eagles Tale staff for three years. She was secretary of the Latin club for two years. Miss Bourn is also one of the librarians.

Hill, Donnell, Sophs

Forest Hill, a sophomore representative is an active member in the class and comes out for football and basketball.

Kate Eileen Donnell, sophomore, was a member of the Student Council last year. Miss Donnell was valedictorian in the seventh grade. She is a member of the Home Economics Club and the Girl Scouts, and is also one of the librarians.

Hill, Little, Frosh

Fairy Hill, freshman, is a brother to the sophomore representative, Forest Hill. He was president of his class in the sixth grade. Fairy also comes out for football and basketball.

Polly Little, the freshman girl representative, came here this year from the Panhandle Public Schools. She is a member of the Dramatic Club, Home Economics Club, and the Purple Peps. Miss Little is a librarian.

When questioned about the plans of the Student Council for the coming year, President Mary Ella Lowe stated, "The Student Council plans to take over more of the problems in the school heretofore taken care of by the teachers. They are beginning with student supervision of the fire drills and plan to accomplish bigger and better things."

Fire Prevention In C. H. S. Observed By Themes, Drills

The high school observed National Fire Prevention Week, October 7-13. The first fire drill of the year was called Tuesday, October 9th. The students got out of the building in only four minutes.

All the English classes wrote themes on fire prevention. The senior English classes wrote compositions of the following types: debates, plays, essays, poems, and short stories.

The home economics classes studied the prevention of fires in the home.

Fire prevention was also discussed in the following classes: Spanish I and II, Journalism, and Public Speaking.

Vocations Class Has Two Speakers

In answer to the request of Superintendent I. B. Carruth, Mr. J. W. McCreary spoke to the voiations class Thursday afternoon, October 4, on the different phases of the dairy business. Frank R. Phillips, of the agriculture department of the college, spoke to the same class Friday afternoon, October 5th.

Mr. McCreary's discussion covered such topics as the requirements for equipment, and the care of the milk before it is delivered to the consumer.

Mr. Phillips discussed the different phases of vocational agriculture.

Rowena Lockwood was in Amarillo Saturday.

Miss Irene Angel is in Kansas City with her sister who is ill.

CHANGE REPORT FORM; LETTER WILL BE USED

OLD REPORT CARDS REPLACED BY COMBINATION LETTER AND REPORT CARD

The traditional report cards will be replaced this year in high school by a combination letter to the parents and report of the six weeks grades. This plan will be followed in order to give the parent a more accurate estimate of the work of the school and the work of the child.

The letter will present some important problem of the school at the particular time that the report goes out, and the grade report will show both the scholastic record and personal traits of the child. The personal traits will be checked: excellent, average, and poor; and will represent, of course, the opinion of the pupils' teachers. The parent is requested after examining the report to confer with the teachers or principal about any point in question. These records will be mailed to every home at the end of each six weeks period. If any parent fails to receive these reports, he is requested to call the high school office.

Born In October? Read Your Future

By Prince Ziabo

In looking over the records of Canyon High School, I have found that several students were born under the planet of Libra:

Sewell Cox, born Oct. 10, is a child of this planet and Libra, or the Balance, controls his fate, and the following has been written for him:

He is well-muscled, and he has been blessed with good health. Sewell walks carefully, and he plans each step before he takes it. He is sensitive to Public Opinion, but he makes a good salesman and speaker. Sewell also prefers brunetts with a light complexion and blue eyes.

Irene Thompson, whose birthday is October 15, is also ruled by this planet. Irene is broad minded and tolerant in religious and other matters. She is of medium size; she is rather severe in her criticism of people. She is a good writer or speaker. She is fond of society and is popular with the opposite sex.

Lavena Watkins and Forrest Hill have alost the same dates platted out for them, since their birthdays are Oct. 18, and Oct. 19, respectively. They will make and keep many friends. Forrest will succeed in the business world; Lavena will find success in the role of housewife. They both understand children, and they are rather broad-minded.

Robert Orton's birthday is Oct. 20, and he has a very different fate in store for his. He will lead a successful life, and he has been born a diplomat. He shall either be a statesman, politician or salesman. He gets what he wants by persuasion rather than by force. He likes to lead and others just naturally follow him.

Myrtle Chitwood, born Oct. 25, is the only student of Canyon High School born in October and is ruled by Scorpio. She enjoys work, but she must see an advantage in work. Her bluntness will not win many friends, but her friends will be faithful. Women born under this sign are very good housewives and mothers.

Fire Posters Made By Spanish Studes

The Spanish classes for the last week have been studying fire prevention, and on Friday, October 12, they observed Columbus Day.

The first year class discussed fire prevention and Columbus Day in English, while the second year class discussed fire prevention in Spanish. The students of the second year class made fire prevention and Columbus Day posters. In the posters of Columbus, the class discussed in Spanish, the story of Columbus. The classes hung the 21 Pan-American flags in the Spanish room.

SENIOR HOME EC. CLUB HAVE FIRST MEETING

The Senior Home Economics club met Wednesday, October 10 in the Home Economics room.

Last year the club contained 13 members. The old members decided to take in seven new ones to make a total of 20. Plans were discussed for the next meeting and for initiation of the new members.

Eagles Meet Happy Jacks Here Friday In Annual Grid Classic

How Do You Know, Proff?

Speaking of the absent minded professor, there is one in Canyon High School.

In Civics class, a teacher gave, as an example of disobeyed laws, the prohibition law in Texas. "You can go over to one of our near-by towns and get all you want," he told the innocent students.

Questioning laughs broke the silence. The teachers colored and added, "So I've been told."

Eagles Beat Farwell 38-2; Second Team Plays Second Half

The Canyon Eagles won an easy victory over the light and inexperienced Farwell Steers Saturday night by a score of 38 to 2. The entire second team played the last half of the game.

Wandell Johnson accounted for two of the touchdowns and succeeded in making an extra point after a touchdown. Jackie Pitts and Benson Clounch also scored for the second team. Ed Brooks and Willard Childers, first team members, accounted for the other two touchdowns, Brooks making an extra point after the touchdowns.

The Eagles threw two passes, completing them for 21 yards, while the Steers attempted eight passes and completed two for 13 yards, and one was intercepted by Benson Clounch for a touchdown.

The Eagles lost 29 yards from scrimmage, made 13 first downs, and were penalized for 20 yards. The Steers lost 9 yards, made three first downs, and were penalized 25 yards.

Wandell Johnson and Benson Clounch brought many cheers from the crowd with their spectacular playing. M. Wallings was the mainstay in the Farwell attack.

Grade School Class Mothers Meet Wed.

The beginning of a membership campaign for the P. T. A. was the central topic of discussion in the meeting of the Grade School Mothers, Wednesday evening.

The duties of the home mothers were discussed; a financial and publicity committee was formed to carry on the campaign for membership.

The room mothers and the grades they represent are: 1B, Mrs. Elzie Price; 1A, Mrs. Frank Hicks; 2B, Mrs. Roy Tate; 2A, Mrs. A. B. Holt; 3A, Mrs. Hammond; 4A, Mrs. Ralph Harter; 4B, Mrs. Johnson; 5B, Mrs. Mark Laughery; 5A Mrs. Bill Black; 6B, Mrs. Roy Rogers; 6A, Mrs. Mark L. Foster; 7A, Mrs. Bill Davis, and 7B Mrs. Edd Little. A room mother for 3A or Miss McClanahan's room, has not been selected.

SECOND GRADE CLOSES CIRCUS UNIT OF STUDY

Having completed a circus unit, the second grade entertained their friends and mothers on Friday afternoon.

Three songs were sung by the entire group. One reading each was given by Margaret Prichard, Evelyn Black, Linsey Taylor, and J. A. Tate. A playlet was given by the room.

After the program refreshments, consisting of punch, toy cookies, and candy, were served to the room by the following guests: Mrs. Roy Tate, Mrs. Wilford Taylor, Mrs. J. R. Reid, Mrs. C. O. Matlock, Mrs. Claude Fox. Mrs. B. Myers, Miss Marie Couch, Mrs. J. D. Barker, Mrs. C. P. Money, and Miss Elva Fronabarger.

Chris Wooten was ill Saturday.

Municipal Band for Studes and Exes Organized Wed.

The municipal band was organized October 10, under the instruction of Mr. H. S. Strain. According to Mr. Strain, much interest has been shown, especially since the uniforms have arrived.

The uniforms arrived October 11, too late for the Canyon-Farwell game, however. The capes are made of purple wool whip-cord, lined with white satin, with the purple felt letters CHS sewed on the flaps of the cape. Military caps of purple whip cord with white bands above which the white initials CHS are embroidered complete the uniform.

The ladies of the Legion Auviliary ordered the uniforms. $250 must be obtained, and the people of the town are co-operating.

The band consists of people from grade school, high school, and town people. Its first appearance was at the football game Saturday night when it assisted the pep squad.

The people wro are playing trumpets in the band this year are: Robert Orton, Florence Root, Jack Pitts, Mabel Schmitz and Edward Little.

Lorenzo Wirt, J. C. Bellah and Dawson Little play the clarinets.

Those who play the saxophones are Loretta Cole and Jack Oldham.

Several people from the college are helping the band at the games until the band gets better organized.

The following are working on instruments and hope to be in the band later on: Lorene Bessire, baritone; Zella Laughery, saxophone, Marjorie Wilkinson, trumpet, Estill Furlow, trombone, and Wayne Marsh, trumpet.

Several are working on drums. These are: Raymond Bible, Betty Ruth Solomon, and Sewell Cox. There are some in the grades who are working and will be in the band later.

Dramatic Students Give Pantomime

Individual and group pantomimes, by all members of the club, was entertainment for the Dramatics Club, Tuesday afternoon.

After the program, the president, Jack Oldham, appointed Ruth McCreary, Myrtle Chitwood, and Faye Plaster chairmen to organize group pantomimes for the next club meeting. The three chairmen then chose members of the club to be in their pantomime.

Before the group adjourned, Miss Irene Angel, sponsor gave a short talk on membership.

Margaret Croson visited in Claude over the week-end.

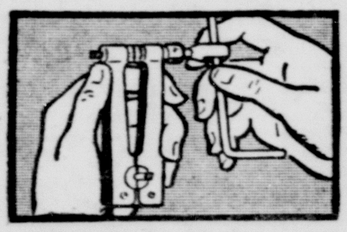
Can You Prove Your Oil is Better than the Others?

We Can and Do!

This Machine Shows Why this New Oil Cuts Motor Wear and Saves You Money!

YOU, as a buyer of Motor Oil, should ask that question—and *demand facts!* Here is Continental's answer: In the demonstration pictured below, the film strength and oiliness of every well known motor oil in America have been shown to be increased by the addition of a drop of Germ Essence.

Demonstrations before at least two hundred thousand motor-minded men have proved that "Any oil would be better oil if Germ Processed!" But there is *only one oil* made by the patented Germ Process—*New and Improved Conoco Germ Processed Motor Oil!* Use this oil of *proved* strength in your car! It saves you money by giving greater motor protection and lower oil consumption. It gives you the comfortable feeling that you know your car is protected by the safest, finest motor oil made!



1

Assembled instrument. Split bearings and shaft, lubricated with competitive oil, are clamped between "jaws" of instrument. With set-screw, extreme pressure is applied.

2

Crank is now used to turn shaft. Oil film ruptures and bearings "seize." Shaft extremely hard to turn. You can even *hear* the metal-to-metal contact!

3

Drop of Germ Essence is added to oil in bearing. Same pressure applied. Shaft can now be turned easily. Smooth, quiet movement—no seizing—no sound. *Proof* that Germ Processing increases oiliness and film strength of any oil!

TO CAR OWNERS OF CANYON

Continental backs claims with *facts.* To prove that New and Improved Conoco Germ Processed Motor Oil gives you lower oil consumption as well as greater motor protection, we drove six brand new cars to destruction, testing this oil against five other nationally known oils. Any Conoco station will give you a booklet that tells the story of this convincing test. It will pay you in money saved to read it. Drive in and ask for a copy—or try this oil!

same play twenty-five years ago. The production is purposely and purposefully designed to turn back the pages of time for a period of twenty-five years. So dramatic was the production and so seriously did the theater-goers of that time take their drama, that the appearance or departure of the villain was the signal for violence and whole-hearted hissings on the part of the audience. Similarly, the hero was uproariously applauded on every justifiable occasion. In the cast of the coming production, the part of the villain is enacted by F. E. Savage, and C. W. Batchelder realistically enacts the role of the sympathy-deserving (though drunken) hero. The cast is made up entirely of faculty members with the exception of two characters, Charles Donnell and Adella Beavers.

There will be no admission charges to see the play but it will be necessary to reserve tickets. Admission will be by tickets only and these may be obtained free in the main hall of the Administration building, at Jarrett's Drug Store or by phoning 190. These tickets will be available until 7:30 Friday night. Those making reservations for the tickets are requested to designate which of the two nights they want to attend.

No tickets will be issued to children. Parents may secure tickets for their children; however, the play will not be particularly interesting to them, and it is suggested that parents do not plan to bring them. All the townsfolk and members of the college faculty are requested to attend the performance of Thursday night so as to leave the second night's show open for visitors.

The play, once considered a great drama, now looked upon as very mellow melo-drama, is being directed by Miss Mary Morgan Brown, head of the Dest Texas State Teachers College speech department, and with the two exceptions, all roles are played by members of the faculty. Music is furnished by the College orchestra under the direction of Wallace R. Clark, and will be typical of the period when the play was popular.

In order to lend more of the old-time atmosphere to the production, peanuts and popcorn will be on sale and Mr. Batchelder ardently desires to hear the munching of popcorn and the crackling of peanut shells in accompaniment with the inevitable, forthcoming hissings and applaudings of the villain and hero.

Alfred M. Smith, County Democratic Head, Died Friday

A. M. Smith, 61, county Democratic Chairman died at his home on Seventh Avenue last Friday evening following an illness of a number of months.

In a case tried with a jury in the Justice Court last Thursday afternoon, O. G. Steen was found guilty of a charge of taking a small bottle of extract from the P. & G. Grocery, was found guilty and assessed a fine of $1.00 and costs. Steen gave notice of appeal to county court.

Mr. and Mrs. Clyde W. Warwick returned Tuesday from a trip to Chicago, and various places in Iowa where they visited relatives for two weeks.

Shoot 348 Frosh, With Cameras, For Annual Pictures

Three hundred forty-eight freshmen of the West Texas State Teachers College have faced the camera during the past ten days.

They have been having their pictures made to appear next spring in Le Mirage, the college year book.

Bill Pittman of Amarillo is editor in chief of the publication, and G. L. Stanley, also of Amarillo, is its business manager.

Hunting Season Brings Troubles for Telephone Co.

Shooting birds may be great sport for the hunters, but it presents a serious problem for the maintenance department of the Southwestern Bell Telephone Company, states, N. H. Moore, Commercial Superintendent, of this division.

When the dove season opened September 1, trouble on long distance lines in the Panhandle District more than doubled. There were 33 cases of trouble in the first 15 days of September, 17 of which were caused by hunters.

Shooting into telephone lines causes either an immediate break in important circuits, or weakens the lines to the extent that they snap when the first cold weather comes, Mr. Moore explained.

In some cases it is necessary for maintenance men to travel many miles to repair damage on long distance lines caused by thoughtlessness of bird hunters. Co-operation of local sportsmen is urged in the interest of keeping telephone service, both local and long distance, up to a high standard.

BROTHER IS KIDNAPPED

N. T. Dickerson, Wm. Dickerson and C. C. Morton were called to Ropesville Tuesday night to assist in hunting for Allen Dickerson who had been kidnapped there Tuesday afternoon. He was released by his captor near Snyder early Wednesday morning.

Government Will Furnish Markers Soldiers' Graves

The government will furnish free of charge head markers for the graves of all ex-service men whose graves have not been marked. This includes men who served in the Civil War, Spanish-American War, and the World War.

Applications may be made by relatives of the deceased men to American Legion officers. C. L. Thompson, A. L. Walsh or H. O. Price will handle these applications for any family in Randall county where the graves of ex-service men have not been marked.

The government furnishes the marker free of charge, and pays the cost of installation.

Calhoun Appointed Assistant Attorney For Judicial Dist.

Clem Calhoun, Amarillo attorney, will handle the prosecution of criminal cases in the 47th Judicial District Court composed of Randall, Armstrong and Potter counties during the absence of District Attorney Grady Hazlewood, who is away because of illness.

Calhoun was appointed temporary assistant district attorney to assist Bob Underwood, who is serving as assistant district prosecutor. Calhoun was appointed by Governor Dan Moody as district attorney in Hutchinson county during the days of the Borger oil boom.

Hazlewood, who is away for treatment in Mayo Brothers Hospital at Rochester, Minn., is not expected to return for several weeks.

Shirley's Got A Fella!

It seems that whenever a movie actress of note is seen with a young man, a romance is hinted. But not in this case. Shirley Temple is nothing more than a guest to Harold Lloyd, Jr., 3½, with whom she is shown above.
